

Jagannath Sarkar

Caltrans, Hydraulics Engineer, Manchester Center, Fresno

Objective: Be elected to PECG Fresno Section
President Elect

My Vision for PECG Fresno Section in the next year
If elected, this will be my 2nd term in the President Elect-President-Director cycle. I am very experienced; this is my 11th year in the PECG leadership position.

I will help make that vision a reality by working to enable Fresno Section to be a more visible and Productive organization that the membership can rely on.

The things I do will help create these tangible results:

Continually improve the goals of outreach. Maintain and improve consistent and open communication through member meetings, e-mail distribution and member fed-back. I think that being a leader is being able to communicate, network and promote ideas, and then follow up. These are the important ingredients to produce tangible results.

My most relevant skills and experience include earning registration as a licensed Civil Engineer working for Caltrans Hydraulics department. I am a good communicator, a good listener and a good leader. I have 11 years leadership experience with PECG and 22 years experience with Caltrans.

Mah M😊😊d Sultan

Caltrans Project Development
Division IV, Design Branch "X", Manchester Center, 2015 E.
Shields Ave, Suite 100, # 2154

Objective:

To be elected to PECG Fresno Section

President Elect – President - Director

My Vision for PECG Fresno Section in the next year: With my extensive PECG prior and current experience and with Fresno Section achieving the "Section of the Year Award" (2007) under my leadership, together we CAN face all the current challenges and we CAN make things happen.

I will help make that vision a reality by providing you with the most effective representation.

The things I do will help create these tangible results

1. To continue with the Section transparency;
2. To get more funds allocated by PECG Corporate Office for Fresno Section;
3. To get the Quarterly Section Luncheons Broadcasted Live to the members who are far away using the current Website Video Capabilities.

My most relevant skills include

1. Successfully completed half of Federal Aviation **Private Pilot** Administration (FAA) license requirements;
2. Parachuted: from an elevation of 10,500 Feet.
3. **Certified Paralegal**: Successfully completed the Paralegal Training at [San Joaquin College of Law](http://www.SJCL.edu) (www.SJCL.edu). Received "Outstanding Student Award";
4. Effectively convinced the CA Board of Engineers to reinstate the exam site in Central California (Visalia) with the support of PECG (Professional Engineers in California Government);
5. Completed The 7 HABITS of Highly Effective People: Franklin Covey.
6. Coordinated of Employees **Blood Drive** for four years;
7. Founded "Barksdale **Fencing Club**";
8. Served Toastmasters International, Barksdale Tale Spinners Club Past Secretary;
9. Designated the Official Photographer 2nd Civil Engineering Squadron, USAF;
10. Learned Multi-languages: Write, read and speak French, Turkish and Arabic. Some familiarity with Spanish;

I gained them through experience in:

Paid Work Experience

Served as Election Clerk and Inspector for over a decade in Fresno County Elections.

Unpaid Work Experience

Serving on Manchester Emergency Response team;
Participated in several shows as Technical Director, Audio, and Cameraman; Live Call-in TV productions.

Previous PECG Experience

1. Fresno Section received "Section of the Year" Award 2007 under my leadership as the Section Director and with the help and commitment of the Section officers.
2. Participated as a representative for PECG at Legislation Day.
3. Served as Fresno Section Vice-President (Rank & File), Treasurer, President-Elect, President, Director, and currently Fresno section Webmaster.

Illinois Institute of Technology - Chicago, Illinois

Bachelor of Science Degree in Civil Engineering. (BSCE), Aug 1981.

Wilbur Wright College - Chicago, Illinois.

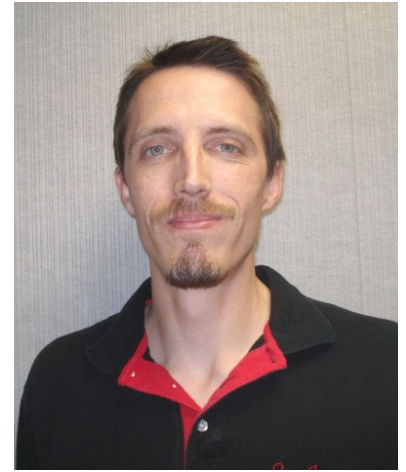

A.A. Engineering, Degree awarded Dec 1979.

Jonathan Gledhill

Caltrans, Project Development, Manchester Center, Fresno

Objective: Be elected to PECG Fresno Section
Vice President Rank and File

My Vision for PECG Fresno Section in the next year...I want our Section to be the most active Section in the state. I would like our members to be engaged and enlightened on the issues. I also want our members to feel connected to those who represent their concerns at the State level. I want to help foster engineering and science achievement in the next generation as well.

I will help make that vision a reality by...doing my best to help those who need help with any grievances they have. I will clarify my role to my fellow Rank and File members so that they know what my purpose is. I will help spread knowledge and clarity on the great many issues facing our members via email and other methods. I will work with local events for our section to sponsor to get our name out there and get our members helping in the community as well as inspiring the next generation of engineers and scientists.

The things I do will help create these tangible results...

I will work with my fellow executive committee members to make the events we sponsor easy for all to assist with, thus increasing participation of our membership.

My most relevant skills include...

Lots of team work as part of the project development process

I gained them through experience in:

Paid Work Experience

I've been in Project Development for the past +10 years

Unpaid Work Experience

I volunteered to help at local Elementary School on Furlough Fridays. (Learned Patience is a key to effective communication)

Previous PECG Experience

Current Fresno Section VP Rank and File

Education

B.S. in Civil Engineering from Cal Poly, San Luis Obispo (2000)

Hal Kenyon

Caltrans, Project Development, Fresno

Objective: Be elected to PECG Fresno Section Vice President Rank and File

My Vision for PECG Fresno Section in the next year is that all Engineers at Caltrans in Fresno could see the benefits we enjoy as State Employees due to the co-operation and efforts of PECG with Caltrans Management.

I will help make that vision a reality by serving the PECG Corporation Collective Bargaining Committee, the rank and file members in Fresno and as chair of the Workforce Issues Committee.

The things I do will help create tangible results by serving, pointing out the past and present accomplishments of PECG, suggesting that all Engineers join PECG and that they commit at least 1 year to serving in PECG.

My most relevant skills include:

- Helping people
- Managing data
- Listening to people
- Discernment
- Design of parts, machines, roads
- Drafting

I gained them through experience in:

Paid Work Experience:

- Management of products offered and customer training (Grundfos Pumps).
- Management of many projects (Grundfos, Vendo, Claude Laval, Caltrans)
- Lead a team of 6 Engineers at Vendo 1996-1999
- Managed own company (Kenyon Drafting and Design 1999-2001)

Unpaid Work Experience:

- Listen to and Serve Church Members as a Deacon since 1995
- Raised two boys now 22 and 25 years old (with much help from my wife)
- Lead a crew of 2-5 people once a month (since 2005)

Previous PECG Experience:

None yet.

Education:

Masters in Business Administration (MBA) 2001 from National University

Randy Perkins

Caltrans, Senior TE, Manchester Center, Fresno

Objective:

Be elected to PECG Fresno Section Vice President Supervisory

My Goals:

- To attend each HQ PECG VP Supervisory meeting (quarterly) and to share the important information with you.
- To attend all monthly Fresno Section PECG meetings.
- To be a PECG's Fresno Section source of up-to-date information, particularly in regards to PECG's on-going efforts to realize the unfulfilled supervisors pay raise, and on any MOU bargaining for Supervisor and Managers.
- To be a PECG contact for any PECG member regarding their employee rights.
- To personally solicit non-member supervisors & managers to become members.

I have served as the VP Supervisory of the Fresno Section for nearly one term now, and during this time I have met with our HQ PECG leaders several times. Though I previously was concerned that PECG was not doing enough to protect our pay and benefits, I am now 110% certain that PECG is doing a lot more than most would ever realize. I believe that HQ PECG is fighting each battle wisely. It is frustrating to us all that the battles go so slowly through due administrative process and the courts, but your membership fees are certainly not being wasted!

It is my hope that, if re-elected to serve a second term as VP Supervisory, I may continue to be a PECG contact person not only for supervisors and managers, but also for Rank and File; and that I will always be able to provide you the latest and greatest on matters that we worry about – our pay, our retirement and our benefits.

Victor Shaw

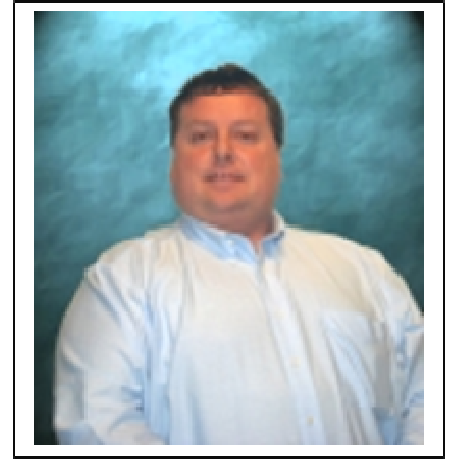

Caltrans, Project Management, Fresno

Objective:

Be elected to PECG Fresno Section Office of Secretary

My Vision:

I have been a strong supporter and advocate of collective bargaining my entire life and more specifically the last ten years that I have been a PECG member. I have been very happy with the PECG leadership on both the State and Local level. The last two years have brought serious challenges and hardship to our membership and it is time for me to step to the front and lead the fight to protect our membership from unjust and illegal actions.

I will help make that vision a reality by joining the local leadership team and providing the support and organizational skills needed to continue to provide outstanding representation to the local membership.

As one of the most visible and well known rank and file PECG members at Caltrans I will bring my energy, leadership and work ethic to the organization and raise the awareness and participation level within the Fresno Section of PECG.

My most relevant skills include outstanding communication, detailed record keeping, inspirational leadership, strong work ethic, and a great personality.

I gained these skills in ten years of private engineering including construction management followed by ten years at Caltrans in construction, design and project management. I have been a Professional Engineer (PE) since 1994 and a Project Management Professional (PMP) since 2005.

I am the current director of the local forum of Project Management Institute and I am currently heading up the initiation of the Central Valley Chapter located in Fresno.

I am a regular contributor to the Cone Zone Chronicle, the Caltrans District 6 Newsletter.

I write a column in the *Cardroom* a California based poker newsletter.

My PECG experience has involved attending Section Members Meetings. I have also attended meetings with local elected officials as a representative of the Section.

I earned a BSCE from California State University, Sacramento.

Sherry Alexander

Caltrans, Design III, Landscape Architecture, Manchester Center, Fresno

Objective: Be elected to PECG Fresno Section Treasurer

My Vision for PECG Fresno Section in the next year is for the members to develop and implement tools for self empowerment.

I will help make that vision a reality by continuing to prioritize my participation in all PECG related meetings and accept additional duties that will benefit the members of the Fresno Section of PECG.

The things I can do to help create these tangible results will be to do my part to work as a team with the PECG Executive Committee, handle all financial responsibilities such as maintain all records of funds in an efficient manner, and balance the PECG Fresno Section budget monthly.

My most relevant skills include commitment to follow through with responsibilities required of the office, and the willingness and enthusiasm to serve the members of the PECG Fresno Section as Treasurer.

I gained these skills through experience in:

Paid Work Experience

Eleven years working for Caltrans: 1999 to present

Since 2007 I have worked at Manchester, Design III, Landscape Architecture,

Eight years at the D.O. in Transportation Planning, appointed and trained as a recruiter for Caltrans (visited various universities during job fairs to assist graduates through the hiring process), 10 years in city planning in the Los Angeles and SF Bay area.

Unpaid Work Experience

Five years in Toastmasters (served two years as an officer), six years on the NE Fresno Planning and Implementation Committee (appointed by City of Fresno Councilman Jerry Duncan), one year on the Architectural Review Committee with the Dominion Homeowners Association in Fresno, more than 10 years serving my church organization as President, Treasurer, and Secretary in L.A., SF Bay Area, and Fresno, organized numerous neighborhood cleanup projects in Fresno.

Previous PECG Experience

During the past year I served as Secretary for the PECG Executive Committee.

Education

Master of Landscape Architecture (MLA)

Bachelor of Science (B.S.) Business
